## Sērija 240 Series 240

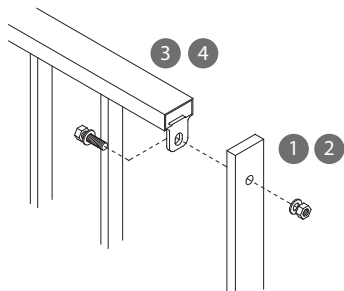

Metāla margu sērija 240 ir viegļas konstrukcijas sistēma. Tā sastāv no vertikālajiem balstiem, taisnā segmenta un stūra segmenta. Pateicoties pārdomātajai margu konstrukcijai, to uzstādīšana ir viegla un ērta. Tās ir paredzētas stiprināšanai uz pamatnes vai pie tās.

*Metal railing series 240 is light construction system. It consists of vertical newel posts, straight segment and corner segment. Thanks to the thoughtful railing construction, assembly is easy and comfortable. You can mount it either on top of the slab or on the side.*

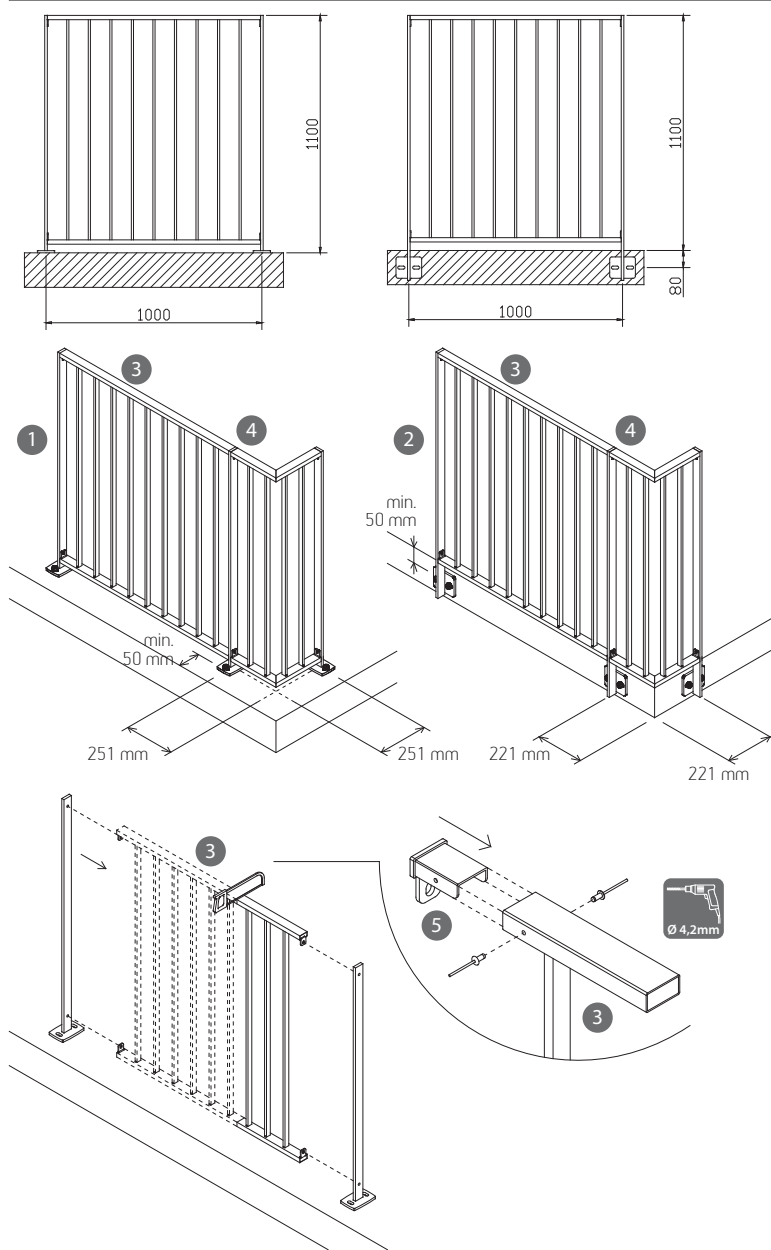

### PRODUKCIJA PRODUCTION

1		Vertikālais balsts uz pamatnes, H = 1100 mm Newel post, on top, H = 1100 mm 240.20010.103 Zn Zn	
		komplektā savienojumu stiprinājumi including fastening set	2 gab. 2 pcs.
2		Vertikālais balsts pie pamatnes, H = 1100 mm Newel post, on side, H = 1100 mm 240.20011.103 Zn Zn	
		komplektā savienojumu stiprinājumi including fastening set	2 gab. 2 pcs.
3		Taisnais segments, W = 988 mm, H = 1060 mm Straight segment, W = 988 mm, H = 1060 mm 240.90014.103 Zn Zn	
4		Stūra segments, W = 245x245 mm, H = 1060 mm Corner segment, W = 245x245 mm, H = 1060 mm 240.90024.023 Zn Zn	
5		Savienotājs Connector 240.20012.013 Zn Zn	
		komplektā kniedes including rivets	2 gab. 2 pcs.
